M1606	1" x 3 1/2" Brass Nipple
M1607	1" x 4" Brass Nipple

BRASS COUPLING

Locke#	Description
M1560	1/4" Brass Coupling
M1561	3/8" Brass Coupling
M0638	1/2" Brass Coupling
M0639	3/4" Brass Coupling
M1638	1" Brass Coupling

BRASS REDUCER

Locke#	Description
M1564	3/8" x 1/4" Brass Reducer
M1566	1/2" x 1/4" Brass Reducer
M1567	1/2" x 3/8" Brass Reducer
M0641	3/4" x 1/2" Brass Reducer
M1642	1" x 3/4" Brass Reducer
M1569	1 1/4" x 1" Brass Reducer

90° BRASS ELBOW

Locke#	Description
M1550	1/4" Brass Elbow
M1551	3/8" Brass Elbow
M0625	1/2" Brass Elbow
M0624	1/2" Brass Street Elbow
M0626	3/4" Brass Elbow
M0643	3/4" Brass Street Elbow
M1626	1" Brass Elbow
M1643	1" Brass Street Elbow

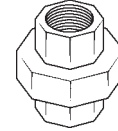

BRASS TEE

Locke#	Description
M1553	1/4" Brass Tee
M1554	3/8" Brass Tee
M0627	1/2" Brass Tee
M0628	3/4" Brass Tee
M1627	1" Brass Tee

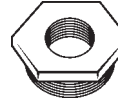

BRASS UNIONS

Locke#	Description
M1547	1/4" Brass Union
M1548	3/8" Brass Union
M0648	1/2" Brass Union
M0647	3/4" Brass Union
M1637	1" Brass Union

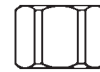

BRASS BUSHING

Locke#	Description
M1568	3/8" x 1/4" Brass Hex bushing
M1570	1/2" x 1/4" Brass Hex bushing
M1571	1/2" x 3/8" Brass Hex bushing
M0640	3/4" x 1/2" Brass Hex bushing
M1641	1" x 1/2" Brass Hex bushing
M1640	1" x 3/4" Brass Hex bushing
M1690	1 1/4" x 3/4" Brass Hex bushing
M1572	1 1/4" x 1" Brass Hex bushing

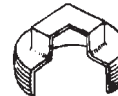

BRASS F.I.P. CAP

Locke#	Description
M1558	1/4" Brass FIP Cap
M1559	3/8" Brass FIP Cap
M0642	1/2" Brass FIP Cap
M1562	3/4" Brass FIP Cap

Jones Stephens Corp. BRASS PLUGS

Locke#	Description
M1556	1/4" Rough Brass Plug
M1557	3/8" Rough Brass Plug
M0630	1/2" Rough Brass Plug
M0631	3/4" Rough Brass Plug
M1639	1" Rough Brass Plug
M0632	1 1/2" Rough Brass Plug
M0634	2 1/2" Rough Brass Plug
M0635	3" Rough Brass Plug
M0636	3 1/2" Rough Brass Plug
M0637	4" Rough Brass Plug

WOODFORD® FREEZELESS SANITARY YARD HYDRANT

Backflow Protected Automatic Draining

The Model S3 hydrant is designed for use anywhere potable water is required. It is equipped with a diverter spout which allows the hydrant to be operated from the backflow preventer. The diverter also allows air to enter the system when hydrant is shut off, allowing backflow preventer and head assembly to drain into reservoir avoiding freezing of hydrant even with hose attached. No water is introduced into the subsoil under normal use. An important feature of the S3 is easy maintenance. The entire working portion of the hydrant can be removed from the reservoir without any excavation. **NOTICE: For Winter Use:** The hydrant must be operated at full

flow, through the diverter, for a min. of 30 seconds before & after each use to drain the hydrant & prevents freezing.

Specifications: HOSE CONNECTION BACKFLOW PREVENTER

- Nidel Model 37HF
- Field Testable
- ASSE 1052 Approved
- 2 Check Valves
- Female Inlet** - 1" N.P.T.;
- Max. Temperature** - 120° F
- Min. Pressure** - 20 psi;
- Max. Pressure** - 100 psi

Honeywell THERMOSTATIC MIXING VALVE

- Dual purpose mixing or diverting valves
- Constant water temperature under changing operating conditions
- Reliable at minimum flow of 0.5 gpm
- Nickel-plated brass construction, EPDM O-rings
- Straight through design (hot and cold at the same level)
- Max pressure 150 psi (1034 kPa)
- Max temperature 212 F (100 C)
- Tamper resistant design
- Valve trapping not required
- ASSE, CSA and IAPMO listed

E0260 AM100C-UT-1 1/2" NPT Union Thermostatic Mixing Valve

E0261 AM101-UT-1 3/4" NPT Union Thermostatic Mixing Valve

Honeywell AMX SERIES THERMO- STATIC MIXING VALVES *Direct-Connect Model*

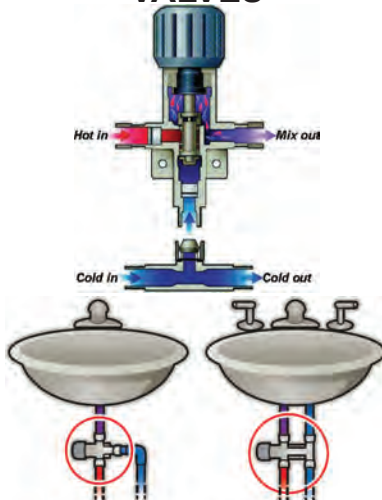

The AMX mixing valve cuts installation time and number of parts in half.

- Adjustable Temperature 90° to 130°.
- Teflon® Coating increases life
- Direct Connection To Water Heater (NPT bottom connection attaches easily.)
- Solid Brass Design for durability.
- Built-In Check Valve prevents reverse flow of hot water through the cold port.
- ASSE 1017 point-of-source Approved
- Maximum temperature 200° F
- Maximum working pressure 150 psi.
- Reliable at minimum flow of 0.5 gpm

E0264 AMX101-UT-1 3/4" NPT Union Thermostatic Mixing Valve

Honeywell UNDERSINK UNIVERSAL THERMOSTATIC MIXING VALVES

Universal 3 or 4 Port connection for 3/8" compression undersink applications. Includes internal check valves in hot and cold ports to prevent cross flow. Easy installation kit includes 3/8 compression nuts, ferrules and stand-offs for secure mounting. Forged brass body construction. Tamper resistant temperature control hand wheel locks into desired temperature position.

- Includes internal check valves in hot and cold ports to prevent cross flow.
- Tamper resistant hand wheel locks into desired temperature position
- Temperature adjustment range 80-120F
- Controls temperature with flow as low as 0.5 gpm
- Forged brass body with pilot holes for secure mounting
- ASSE 1016 and ASSE 1070 listed

Locke#

Honeywell DIALSET PRESSURE REDUCING VALVE

- Dial is calibrated in 10 psi increments to allow quick and accurate adjustment of outlet pressure.
- Flow capacity and accuracy make the DS05 suitable for potable water service and most irrigation applications.
- High pressure (400 psi) inlet rating.
- Non-corroding unitized cartridge contains all working parts and is easily replaceable.
- Bronze body with stainless steel and engineered thermoplastic internal parts.
- Balanced single seat for accurate pressure output under varying inlet pressures.
- Inlet and outlet are internally threaded female NPT, and externally threaded for use with union assemblies.
- Built-in strainer and thermal bypass.
- One model can be used in low, standard or high pressure applications.

Locke#

E0267 DS05C1055 Dialset Pressure Reducing Valve 3/4" UNSWT

Honeywell COMPACT 3/4" PRESSURE REDUCING VALVE

- Bronze body construction with stainless steel and engineered thermoplastic internal parts
- One piece non-corroding cartridge
- Fully balanced regulator mechanism with fabric reinforced diaphragm
- Includes balanced seat for accurate pressure output under varying inlet pressures up to 400psi
- Inlet and outlet internally and externally threaded (NPT)
- Built-in strainer and thermal by-pass
- ASSE 1003 and IAPMO listed

Locke#

20 DFU AIR ADMITTANCE VALVE

Air admittance valves (AAVs) are one way valves that allow air in, to vent or equalize pressure in waste pipes, without allowing gases, odors, or liquid out. Ayrlett brand AAVs have been tested by

an independent U.S. lab 500,000 cycles, in temperatures ranging from -40° to +150°F, without a single failure.

AUTOMATIC VALVE FOR WASHING MACHINES

Prevent water damage from flooding and leaking washing machines. This washing machine leak detector will detect a leak, sound an alarm, and automatically turn off the water supply to the washing machine to prevent further damage.

This water detection unit can be easily installed in about 10 minutes.

Comes with a One Year warranty.

Components: 90 Degree Motorized Ball Valves (Two valves, 3/4 inch Hose Threaded with union), Water/Leak Sensor, AC Power Adaptor.

POW-R WRAP PIPE REPAIR

Water Activated Fiberglass Wrap

FAST AND EASY TO INSTALL

Pow-R Wrap is a strong, *permanent* and economical repair. Works on wet, dry, clean, dirty or corroded pipes. Even works under water... salt or fresh.

PERFECT FOR REPAIRING:

- Copper
- Rubber
- Concrete
- Plastics
- Fiberglass
- PVC Pipe
- Galvanized
- And MORE!

IDEAL FOR ALL FLUID BEARING PIPES AND HOSES:

- Water
- Sewage
- Air
- Steam
- Fuel
- Hydraulics

STRUCTURAL REPAIRS TO:

- Brackets
- Mufflers
- Fencing
- Supports
- Exhaust Pipes
- Tools

EACH KIT CONTAINS:

- Resin impregnated fiberglass tape in foil bag
- Epoxy putty to enhance repairs
- 1 pair of protective gloves
- Complete installation instructions

Non-Toxic Contains no harmful solvents. Can be used on water and food service lines.

Locke#

M1114 Pow-R Wrap 2" x 4'

M

MISCELLANEOUS

ALUMINUM OXIDE OPEN MESH ABRASIVE

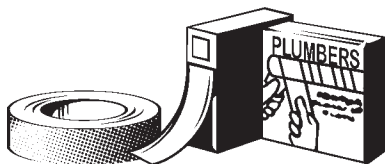

- 21 x 21 Mesh – Has larger holes than other open mesh products. This feature prevents “loading” and allows contractors to rinse the mesh clean. Resists clogging even when used on softer materials.
- Premium blended 165 grit white Aluminum Oxide cuts and scores surfaces faster for more effective cleaning and deburring. Traditional open mesh plumbers’ rolls typically use less aggressive grit material.
- Waterproof – Wet conditions have absolutely no adverse effect on the performance or durability of Blue Monster open mesh.
- 2" Width – 33% wider than traditional 1-1/2" wide plumbers’ rolls. Blue Monster provides contractors with more “surface-to-surface” coverage.
- Bright Blue color – Bright color makes it easy to find in dark or low-light work spaces.

Locke#

M1410	70151	2" x 8" mini strips
M1411	70152	2" x 5 yard roll
M1412	70154	2" x 10 yard roll
M1413	70156	2" x 25 yard roll

SAND CLOTH

To clean copper tubing before soldering.

Locke#

M0093	1 1/2" x 30'	Open Nylon Mesh
M0095	1 1/2" x 30'	Fine Sand Cloth

FITTING BRUSHES

Locke#

M0096	1/2"	Copper Fitting Brush

M1094	7/8"	Stainless Steel Brush
M1096	1 1/8"	Stainless Steel Brush

ULTRA-FLEX® ABRASIVE CLOTH

- Super flexible Ultra-Flex® backing conforms to tight work areas. Blue Monster is unlike any other sand cloth. You can actually feel the difference.
- Premium 150 grit cuts and scores surfaces faster for more effective cleaning and deburring. Traditional plumbers’ rolls typically use less aggressive grit material.
- 100% Waterproof – Wet conditions have absolutely no adverse effect on the performance or durability of Blue Monster abrasive cloth.
- 2" Width – 33% wider than traditional 1-1/2" wide plumbers’ rolls. Blue Monster provides contractors with more “surface-to-surface” coverage.
- Bright Blue color – Bright color makes it easy to find in dark or low-light work spaces.

Locke#

HARRIS STAY-CLEAN® LIQUID SOLDERING FLUX

Locke#

M0827 40002 4 oz. Flip Top

CANFIELD TECHNOLOGIES COPPERMATE FLUX

Cleans & prepares metal surfaces and removes oxidation. Also great for soldering brass, steel, iron, tin, lead, terne plate, galvanized steel, & tin plated aluminum fittings.

Locke#

M0813 4oz. Jar Copper-Mate Flux

LA-CO. REGULAR SOLDER FLUX

Solder copper, makes it possible to solder alum. to copper assemblies. Contains no harmful ingredients, even if ingested. Leakproof soldering every time with any soft solder.

Locke# NON-TOXIC!

M0750 4 oz. Regular Solder Flux

M0892 1 Lb. Regular Solder Flux

S.O.S. ODORLESS FLUX

Lead free, greenless, odorless. With brush. No cleaning.

Locke#

M0745 ½ Pint Solder Flux

Oatey #5 PASTE FLUX

Cleans and fluxes at the same time. 100% lead free. NSF listed.

Locke#

M0893 8oz. Paste Flux

M0894 1Lb. Paste Flux

*Thank You
For Your
Business!*

RECTORSEAL NOKORODE® AQUA FLUX™

Meets ASTM B-813 standards requiring that fluxes be water "washable" and can be flushed from the piping system to prevent corrosion. For use with 95/5, 60/40, 50/50, 40/60 and other solders.

Locke#

M1778 Nokorode Aqua Flux 4 Oz

M1779 Nokorode Aqua Flux 16 Oz

RECTORSEAL NOKORODE® REGULAR PASTE FLUX

A lead free, all purpose, soft soldering paste flux ideal for use with 95/5 and other common solders. Special oil base protects the solder joint against corrosive attack. It cleans and fluxes all at one time. Ideal on copper and brass.

Locke#

M1766 8oz. Paste Flux

RECTORSEAL C-FLUX

- Pre-cleans & Pre-tins
- For leak free joints
- Lead free
- High quality

Locke#

M0763 C-Flux - ½ Pint

M0764 C-Flux - 3 ounces
