

Scotch 054007-10851 Premium Grade Electrical Tape, 3/4 in W x 66 ft L, 7 mil THK, PVC, Green

Details

Locke Part #: **P0119**
Mfg. Part #: **054007-10851**
Manufacturer: **3M**

Features

Abrasion and weather resistant
Flame-retardant, resists UV rays, abrasion, moisture, alkalis, solvents, many acids
Stretches to conform to virtually any shape
The tape will remain stable and will not telescope more than 0.1 in when maintained at temperatures below 122 deg F (50 deg C)
5 year shelf life
Color coding electrical tape
8750 volts standard condition dielectric breakdown
225 percent elongation at break
20 in-oz Adhesion to Steel, 20 in-oz Adhesion to Backing adhesion

Attributes

Adhesion Strength: **20 in-oz**
Adhesive Material: **Rubber**
Application: **For phase identification, insulating electrical wiring, protecting electrical conductors, motor leads and piping from moisture, alkalis, acids, corrosion, abrasion and weather use**
Backing Material: **PVC**
Color: **Green**
Dielectric Strength: **1250 VAC/mil**
Length: **66 ft**
Material: **PVC**
Mfg Standards/Approvals: **UL 510 File No. E129200, CSA C22.2 File No. LR 48769, RoHS 2002/95/EC Compliant**
Shape: **Roll**
Temperature Rating: **0 to 105 deg C**
Tensile Strength: **17 in-lb**
Thickness: **7 mil**
Type: **Premium Grade**
Voltage Rating: **600 VAC**
Width: **3/4 in**
